

Vertical Balers

V-press 825 Plus Pro

> The V-Press 825 Plus Pro is characterised by its very low transport height, which means it is ideal for compact areas.

Benefits

Savings on your waste collection

Tidy premises

Space and time saving

Features

Robust mechanical bale ejector belt for easy bale removal

Special hydraulic cylinders with hardchrome plated pistons reduce wear, prevent breakdowns and prolong service life

Low installation height and small footprint

High process reliability due to HSM TCS (Torsion Control System)

The V-Press 825 is characterised by its very low transport height, which means it is ideal for compact areas.

Conforms to EN16500

Vertical Balers

V-press 825 Plus Pro

> The V-Press 825 Plus Pro is characterised by its very low transport height, which means it is ideal for compact areas.

Technical Data

Press Force	25 ton
Cycle Time	35 secs
Driving Power	4 kW
Machine Weight	1200kg
Voltage	3 phase, 400V, 50Hz

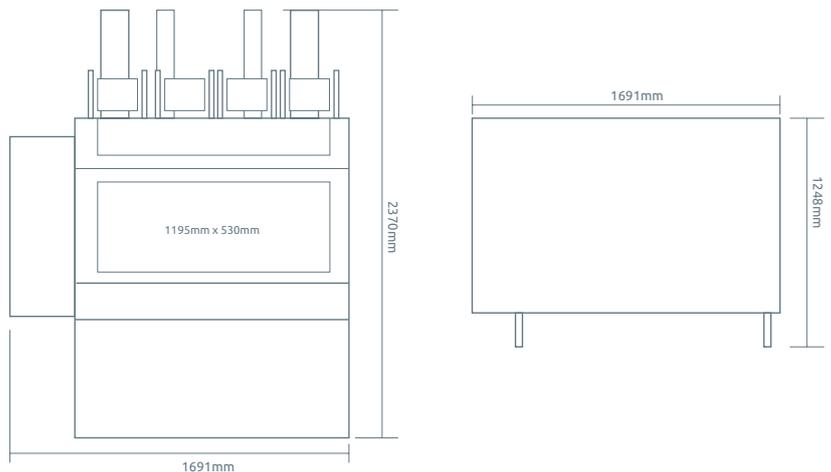

Dimensions

Width	1691mm
Depth	1248mm
Height	2370mm
Transport Height	1950mm
Loading aperture	w: 1195mm h: 530mm

Bale Data

Width	1195mm
Depth	780mm
Height	700mm
Weight (Cardboard)	280kg*

* The bale weight varies depending on type, humidity and condition of the compressed material together with bale length or height.
