

5030

> This in-bag compactor can handle multiple types of waste.

This small in-bag compactor is sturdy, versatile and easy to use. This machine can be used for most types of general waste and requires little space. Can be used in a standard domestic socket.

Key Features

- Bag protected during compaction process.
- Top fed machine for easy loading.
- Simple hand lever control.
- Odour control and less spillage.
- Quiet operation.
- Press unit slides easily from front to back.
- Conforms to EN16500.

Benefits

- Savings on your waste collection.
- Tidy and safer premises.
- Hygienic handling and contained waste.
- Driving on-site compliance.
- Reducing your waste disposal frequency & cost

Technical Data

Compaction Ratio	10:1
Press Force	3 ton
Cycle Time	30 seconds
Noise Level	<62.7 db
Machine Weight	381kg
Power Supply	Can be used in standard domestic socket, recommended dedicated 16 amp, Type D, Single Phase, Blue Commando Socket

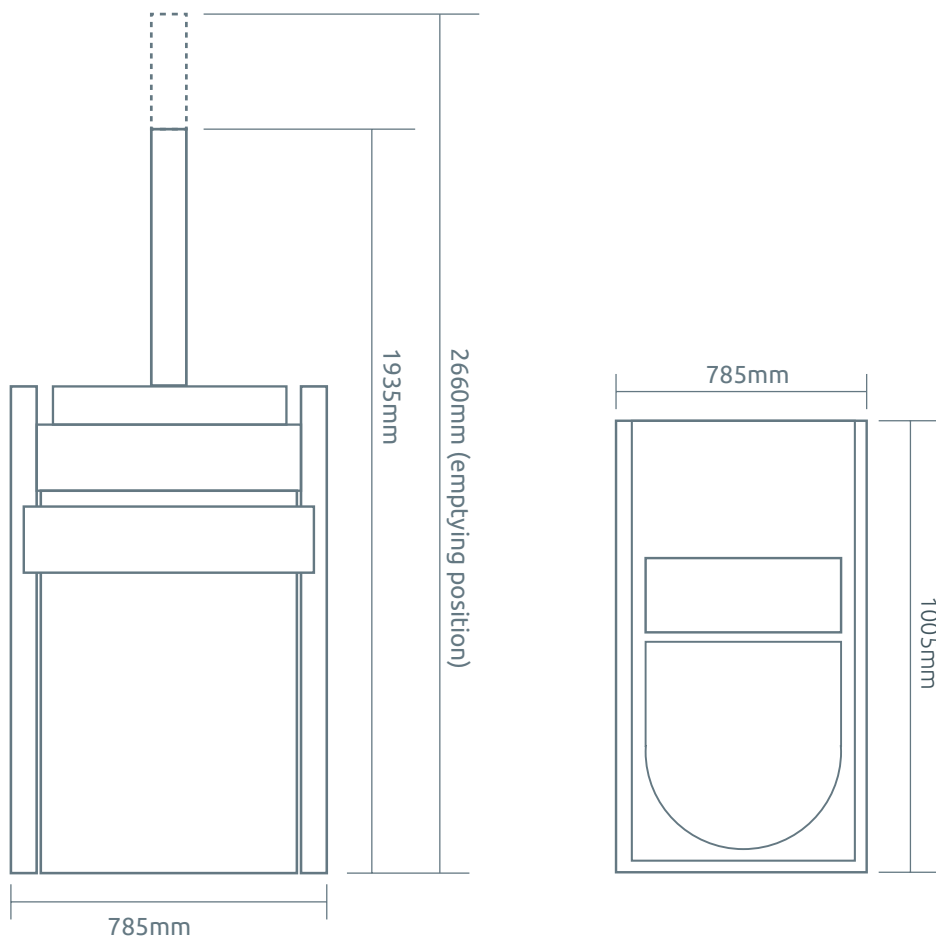

*The compression ratio varies depending on type, humidity, and condition of the compressed material within the bin.
