

## V-Press 504

> A sturdy space-saving baler with a high compaction ration.

This entry level baler is sturdy and has a small footprint which can handle cardboard & plastic waste streams with ease, thus making it ideal as an economical option with manageable small bale sizes up to 60kgs.

### Key Features

- Compact and sturdy design with a small footprint.
- Touch pad with text display informing you of the current state of machine.
- Selectable programmes for pressing cardboard or plastic.
- Bale removal and transport with discharge trolley.
- Informs you if recyclables have been loaded incorrectly.
- Auto start feature upon door closure.
- Dual interlocked door sensors throughout the range.
- Special retaining claws optimising compression of the pressing material, increasing both the loading volume and bale output.
- Conforms to EN16500.

### Benefits

- Reducing your waste disposal frequency & cost.
- Keep your premises tidy & freeing up number of bins/skips.
- Helping your business remain compliant.
- Create efficient waste streams for recycling.
- Improved waste management process.

### Technical Data

Press Force	4 ton
Cycle Time	27 seconds
Driving Power	1.10 kW
Machine Weight	290kg
Noise Level	<70 db
Power Supply	Can be used in standard domestic socket, recommended dedicated 16 amp, Type D, Single Phase, Blue Commando Socket

Unit 6 Alpha Industrial Park, Bevan Way, Smethwick, B66 1BZ

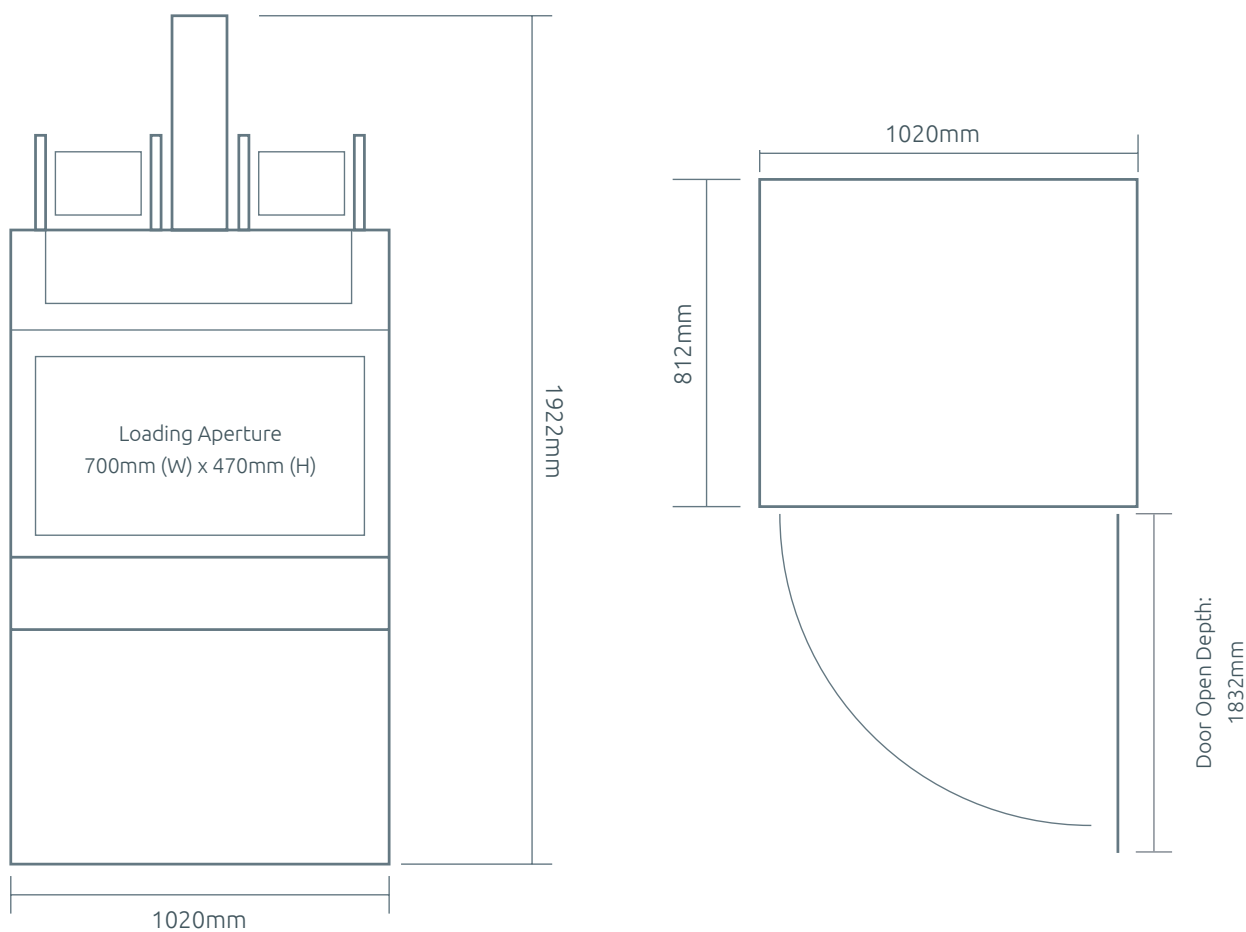

### Machine Dimensions

Width	1020mm
Depth	812mm
Height	1922mm
Transport Height	1922mm
Loading Height	661mm

### Bale Data

Width	700mm
Depth	500mm
Height	600mm
Baled Weight Application	60kg*

\*The bale weight varies depending on type, humidity, and condition of the compressed material.
